## Public Health Matters

### Vaccination Check-list for Sports and Summer Camp Physicals

Sports physicals are now required on a yearly basis. The sports physical is a good time to check if your child is adequately immunized against life threatening diseases. The following list identifies vaccinations needed for kids ages 11 - 19 years.

- ✓ **MMR** - 2 doses are required for school entry as well as for college admission.
- ✓ **Tdap** - A booster for tetanus-diphtheria-pertussis is due at age 11 - 12 years.
- ✓ **Varicella (Chickenpox)** - A 2-dose series is required for entering school. Any teenager who was vaccinated as a child with only 1 dose needs a second dose now.
- ✓ **Human Papillomavirus (HPV)** - all adolescent girls should get a series of 3 doses for prevention of cervical cancer and genital warts. Boys, too, can get the HPV vaccine to prevent against genital warts.
- ✓ **Meningococcal (Meningitis)** - Vaccine recommended for all teens ages 11 - 18 years and college freshmen who will be living in dorms.
- ✓ **Hepatitis A** - A 2-dose series is recommended for anyone wanting to avoid Hepatitis A. Ask your doctor if you are at increased risk.
- ✓ **Flu** - Every person 6 months and older should receive an annual flu shot every fall.
